ORGANIZATION

OF THE

CITY GOVERNMENT, JANUARY 3, 1907.

The Mayor and Council met at the council room on the afternoon of the first Monday of January, 1907. Mayor Whittier called the Council to order at 7.45 o'clock. Records read and approved. City Clerk F. H. Daniell read the amounts appropriated, the amounts expended and the balances for each department.

Mayor Whittier then delivered the following valedictory and the council of 1906 adjourned :

Gentlemen of the Council :—Twelve months have elapsed since we took our oath of office to administer the business affairs of the city of Franklin to the best of our ability and we have the satisfaction of being true to our oath, and faithful public servants.

The reports of the several departments of the city will give full details of receipts and disbursements and I will not take your time to cover the same matter.

The general debt of the city at the beginning of the financial year of 1906 was \$164,107.80, and during the year it has been increased to \$178,536.61, the cause of the increase being the construction of the central heating plant at a cost of \$13,813.76.

In closing my official connection with the city government, I desire to extend my sincere thanks to the members of the city council and all city officials who have served with me during the past year for their courtesy and support. To his honor, Mayor Nevins, and the

council of 1907, let me extend to you all, in behalf of the retiring members of 1906, our best wishes and cordial support. May your administration be crowned with success.

Mayor Whittier stated that previous to last year the city had received several thousand dollars each year from the water commissioners to apply on the debt. Not only had this not been received the past year, but there had been a call for \$1,000 to pay interest on the bonds.

Ex-Mayor Whittier introduced Mayor-elect Michael J. Nevins to the councilmen, and Clerk Daniell administered the oath of office to Mr. Nevins, and afterwards to James W. Huntoon of ward 1, Richard W. Sulloway from ward 2, and Giles O. Thompson from ward 3.

Mayor Nevins called the council to order, and on motion of Councilman Davis they adjourned to the opera house. Seats and table had been arranged on the stage and a good number of voters had assembled to listen to the mayor's inaugural and watch the proceedings.

Mayor Nevins spoke as follows :

In assuming the office of mayor, I would be false to the dictates of conscience, did I not from the bottom of my heart thank the citizens of Franklin for the very gratifying endorsement I received at the recent election. To merit the confidence of the people will be my earnest endeavor, and I call upon all to give their moral support to the council of 1907 in their efforts to promote good government and a continued progressiveness to our city's affairs.

You will pardon me, gentlemen, if I deem it proper and opportune to violate the custom of recent mayors, and re-establish the precedent of our earlier mayors, by reviewing conditions and offering suggestions in relation to the different departments of our government.

I cheerfully invite public comment on every recommendation or suggestion made by me as I have no inter-

ests to serve but those of the people and hope by an impartial expression of their views to more thoroughly acquaint the council with the city's needs and demands.

Our present rate of taxation seems to be satisfactory, no unfavorable comment being heard. With the rate at \$18.50 per thousand this year as in previous years, we may hope to meet current expenses and have a fair sized balance to apply on debt or to be used for permanent improvements.

Owing to the delay in drawing off the financial statement for the past year, I am unable to refer to our financial condition as fully as I would have liked. I wish to call your attention to the part of our indebtedness covered by demand notes made up as follows: Nesmith school, \$10,000; central heating plant, \$15,000, aggregating \$25,000. While there is perhaps little likelihood of our being called upon to pay these notes within the immediate future, yet there is always a possibility of payment being demanded, or rates of interest advancing, particularly so under the stress of money conditions that our country is at present experiencing. Let us hope we may not be called upon to pay a higher rate of interest in the future than we are at present paying.

I would offer as a suggestion that when conditions are favorable these notes be replaced by a bond issue or time notes payable in yearly installments.

There is but one recommendation to make involving an unusual expenditure, and in bringing it to your attention I am not disclosing an idea new to you or the people. I refer to the city's owning the so-called Odell park. I have talked with some of our large property owners, also very many of our citizens, and am pleased to report a very strong sentiment in favor of securing the land for a public park. From talk I have had with a few of the present owners of the property, my belief is the time is at hand when the city can own this land at a very low figure.

I recommend that a committee be appointed to find

out at what price and terms it can be purchased. I am in favor of its immediate purchase at a reasonable price.

SCHOOLS.

We are particularly fortunate that the management of our schools is in such able hands and the fact that previous councils have, year after year, retained the services of our present board of education reflects credit on their judgment.

Much praise is due Supt. Sanborn for the good work he has done. Ever faithful to the interests he represents, he has by constant care and attention advanced our public school system to a standard of efficiency that is an honor to our city.

Notwithstanding there has been a marked advance in the prices of materials and supplies of late, we are pleased to note the yearly cost of education has been reduced approximately two dollars per scholar within the past four years. We now rank amongst the most economically managed schools in the state.

May the spirit of liberality that has characterized previous councils manifest itself in the school appropriation for 1907, for to my mind there is no department more worthy of generous financial support than our public schools.

ROADS.

The condition of our highways, coming as they do, under the eyes of so many of our citizens, naturally causes this department to be the most generally talked about and severely criticized of any. That the criticisms are oft-times unjust, I have no doubt. That there is need of improvement is much in evidence. If mistakes have been made in the past, may we profit by the experience.

It is said we have within our city limits approximately one hundred and forty miles of highways to care for. Much of this is little used. Competent authority informs me the general repairs, snow-paths, etc., under ordinary

conditions, can be done for about six thousand dollars. The repairs on highways should be started as early in the spring as conditions will warrant and hurried to completion by August 1st if possible.

It will be readily appreciated that six thousand dollars is not sufficient to keep the equipment of our highway department busy for more than eight months of the year. If the bulk of general repairs are completed by August 1st, the months of August, September, October and November may be used for permanent improvements or new work.

If we make the same appropriation this year for permanent improvements as we made last, together with the state aid we are to receive, we will have, including that part of the 1906 appropriation unused, nearly six thousand dollars for so-called permanent highways. This is a nice sum, and with its careful use we ought to make a very satisfactory snowing.

Now, I believe money for improving highways should be expended the same year it is appropriated. Unfinished work does not savor of good business methods, and I trust whatever work is laid out for 1907 will be completed and not left over for the succeeding council to shoulder. If, to do our work within the year, it becomes necessary to employ outside teams and men, why, employ them. We have the work to do, let us do it.

Nature has provided us with stone as the only available material for road building. I dare say there is not a suitable gravel bed or clay bank in sufficient quantity within our city to warrant its use in road making. It therefore follows that macadam roads are the kind for Franklin.

My policy would be to keep our present highways in fair condition with the outlay of as little money as possible, and with a liberal yearly appropriation for permanent improvements build macadam roads. In this way we can in a few years have highways that will be a credit to the city.

We must not forget our rural citizens. They, too, are tax payers, and of necessity must travel over roads, good or bad. A liberal portion of the appropriation ought to be used in their interests. It is probably true that much of the repairs on country roads could be done at less expense by farmers of the neighborhood than by our city teams. They very naturally have more than a passing interest in that part of the highway over which they daily travel and would likely produce pleasing results in the expenditure of money used in their vicinity. It might be in the interests of economy and better highways to give this a trial.

SEWERS.

The question of sewers is a troublesome one. Some twelve years ago a plan for an extensive system of house sewerage was made by Mr. Fuller and much of the system since installed has been in accordance with those plans. The main outlet was laid through River street about eleven years ago. Franklin and Elkins streets have since been connected. Willow Hill and Bow street are also improved along the lines of the plans, and with the extension of the system, incident to the development of the locality, would be the best drained part of the city.

The work of late has been east of the Franklin & Tilton railroad, in that section known as Prospect Hill. Those of you who have lived here for the past ten years need not be told of the many homes that have been built in this locality. That there is a pressing need of sewers on this hill is without question, but how long we can continue the practice of entering these new extensions into the system of surface drainage, condemned years ago as unfit, without endangering public health is a matter for serious consideration. I would advise that no more work be done that does not connect with the approved system.

There has been expended on sewers in the past twelve years some over thirty-six thousand dollars.

The cost of the entire system was estimated in 1895 as fifty-thousand dollars. Many thought it might be installed for a less sum. With the money expended we have built perhaps two-fifths of the entire system. Here the question of economy confronts us,—is it less expensive to the city to construct the system piecemeal as we have been doing, or bond the indebtedness and complete the work at one time?

This subject, involving as it does public health and also a large expenditure of money, should be acted upon only after thorough discussion and investigation. I recommend that a committee be appointed to consist of the mayor and one member of the city council from each ward, with one representative citizen from each ward, making a committee of seven, to investigate the subject of house drainage and report to the council at a future date a plan of action for further consideration.

POLICE.

At the November state election the question of whether Franklin should continue the policy of licensed liquor saloons was decided in the negative. Much was heard of the evils that would spring up in the event of our city voting as it did. Kitchen barrooms, speak-easies, dives and other hell-holes were heralded as conditions we would have to tolerate.

Gentlemen, if the pro-election prophecies do prevail during the coming year, the blame be on us. But as mayor of the city of Franklin, I declare they must not with our knowledge, prevail, and therefore publicly instruct the police department to unhesitatingly enforce the laws governing the illegal traffic in liquor, that we may receive all the good that the term "no-license" may imply.

Laws are made to regulate abuses and punish offenders. The enforcement of good laws always tends for public good. The enforcement of bad laws is the surest guarantee of their speedy repeal.

FIRE DEPARTMENT.

Well equipped with modern apparatus our fire department is on a basis to sustain its well earned reputation. We regret that Chief Bunton is considering resignation from the department. Qualified by experience, temperament and ability, he has won the respect and approval of our property owners and tax payers. We should endeavor to retain his services, for under his guidance the city is assured of an economical management of the department.

I would offer for your consideration the question of installing in the Central street engine house the heater now located in the city hall building, the use of which has been discontinued by reason of the central heating plant. The present method of heating the building is by stoves. There are five in number. My belief is that a more uniform heat during the cold months would prove of advantage in drying and thereby prolonging the life of the hose. It seems this change might be made at small expense and prove a benefit to the city.

CLOSING.

Members of the council and heads of various departments, we have been intrusted with the expenditure of the city's funds for the maintenance and improvement of the city's affairs. We should see that an honest dollar be paid for every honest dollar earned by city employes and expect in return each and every employe to render a good day's work for the wages he receives. It is our duty to guard the city's interests with even more care than we do our private affairs. Our motto for 1907 ought to be "Public Service."

Business coming before us should be freely discussed, considered impartially and without prejudice, judgment rendered without fear or favor or hope of future reward. If we but act as honest men with a common purpose, though we differ in ways and means, I feel satisfied the results attained during the year will be alike satisfactory to ourselves and the people whose servants we are.

CITY GOVERNMENT.

Organized January 7, 1907.

CITY COUNCIL.

Mayor.

Elected annually on the fourth Tuesday of November. Salary \$200 a year.

MICHAEL J. NEVINS.

Councilmen.

Elected by wards for three years. One member from each ward elected on the fourth Tuesday of November annually. No salary.

Term Expires.

<i>Ward 1</i> —	MILTON B. NEAL, .	January 6, 1908
	GEORGE S. DAVENPORT, .	January 4, 1909
	JAMES W. HUNTOON, .	January 3, 1910
<i>Ward 2</i> —	HECTOR MORIN, . .	January 6, 1908
	GEORGE E. CLARK, .	January 4, 1909
	RICHARD W. SULLOWAY, .	January 3, 1910
<i>Ward 3</i> —	HARRY F. DAVIS, .	January 6, 1908
	WILLIAM W. EDWARDS, .	January 4, 1909
	GILES O. THOMPSON, .	January 3, 1910

Standing Committees for 1907.

HIGHWAYS—Clark, Thompson and Huntoon.

FIRE DEPARTMENT—Davis, Huntoon and Sulloway.

POLICE—Edwards, Clark and Davenport.

SCHOOLS—Thompson, Neal and Morin.

BUILDINGS—Davis, Neal and Sulloway.

ORDINANCES—Edwards, Morin and Davenport.

STREET LIGHTS—Sulloway, Huntoon and Davis.

CEMETERIES—Davenport, Morin and Edwards.

FINANCE—Mayor, Neal and Thompson.

City Clerk.

Elected annually by the City Council. Salary and allowance \$375 a year.

HIGHWAY DEPARTMENT.

HIGHWAY COMMISSIONER'S REPORT.

To the City Council of the City of Franklin :

I herewith submit the following report as Highway Commissioner of the City of Franklin for the year 1907 :

Twelve thousand one hundred and twenty-one feet of state highway has been built.

North Main street has been picked up and redressed to Brown's hill.

Central street from the Republican bridge to Sanborn hill has been thoroughly repaired.

The outside roads have been gone over and been thoroughly repaired.

Republican bridge needs shingling on the south side.

The two iron bridges need painting. The other bridges are in good condition.

JAMES C. NOWELL,

Highway Commissioner.

 Highway Department as Estimated December 31, 1907.

FIRE DEPARTMENT.

ENGINEERS' REPORT.

To the City Council of the City of Franklin :

We herewith submit our annual report for the year 1907.

The department consists of a chief engineer and four assistants ; hose company No. 1, Capt. Ned Flanders, 10 men ; hose and steamer company, Capt. John Mc-Gloughlin, 15 men ; hook and ladder company, Capt. Aze Landry, 15 men ; total of 45 men. The equipage of the department is as follows :

CENTRAL STATION.

One one-horse hose wagon, in good order.

One two-horse hook and ladder truck, in good order, with runners for the same.

One Amoskeag steamer, in good order.

One new one-horse sled.

1,800 feet good two and one-half inch rubber-lined hose.

HOSE COMPANY NO. 1, SOUTH MAIN STREET.

One one-horse hose wagon, in good order.

One hand reel.

One horse sled.

One hand engine in good order, stored in the Daniell barn near the Central station.

1,000 feet good two and one-half inch rubber-lined hose.

No. 3 hand reel, located in hose house, opposite No. 1 paper mill on Central street, has 350 feet good two and one-half inch rubber-lined hose.

No. 4 hand reel, located in hose house off Pine street, in the rear of Pine street, has 400 feet good two and one-half inch rubber-lined hose.

No. 5 hand reel, located in hose house on Pearl street, at the head of Park street, has 400 feet good two and one-half inch rubber-lined hose.

All of these pieces of apparatus are supplied with necessary pipes, wrenches, axes, etc.

There is also located in under the stable of Clark & Knowlton, a truck with one 55-foot extension, and one 24-foot roof ladder. There are two pony extinguishers at Clark & Knowlton's stable, two at the city hall, one at the passenger station on Depot street, and one at G. H. Barnes' stable, belonging to the department and should be used by anyone who should discover a small fire in any of these locations.

During the year the Central station has been equipped with steam heat, the large heater formerly in the opera house being used for that purpose. Storm windows have been put on two floors and the cellar. An iron track has been put in under the hook and ladder truck for use with either wheels or runners. Cards of instruction in regard to the use of the Fire Alarm system have been put into every home and business place in the city.

Through the generosity of Mr. Warren M. Draper, Fire Alarm Box, No. 24, was installed on Glenwood Ave. The hose carriages at the Central station and the South Main street station have both been equipped with a Larkin Relief valve and Larkin Spray Shut-off nozzle. The hand sled at the South Main Street station has been made over into a one-horse sled. 350 feet of Paragon hose has been purchased for the department during the year.

During the year there were 24 still and 11 bell alarms.

LIST OF FIRES, 1907.

January 1. Alarm from box 25 for fire in Aiken Bros.' house, Bow street. No loss.

January 24. Still alarm for chimney fire in house of James Ryan, North Main street. No loss.

Feb. 23. Still alarm for chimney fire in house owned by Shepard & Neal on Franklin street. No loss.

Feb. 24. Still alarm for chimney fire in house owned by Mr. Flanders on Willow hill. No loss.

Feb. 26. Alarm from box 25 for fire in house on Pleasant street, owned by Mrs. S. J. Robinson and occupied by W. J. Busiel. Value of building \$1800. Insurance paid on building \$425. Value of contents \$500. Insurance \$500. Loss on contents, \$225. Insurance paid, \$225.

March 11. Alarm from box 23 for fire in residence of A. B. Simonds on Glenwood avenue. Value of building \$4000. Insurance, \$2800. Loss on building, \$150. Insurance paid, \$145.

March 11. Alarm from box 34 for fire in house owned by Mrs. Smith Crowell on Pearl street. No loss.

March 13. Still alarm for chimney fire in Ripley block, Central street. No loss.

April 3. Alarm from box 23 for chimney fire in house owned by Mrs. A. McDonnell on Bow street. No loss.

April 5. Still alarm for chimney fire in residence of James C. Nowell on Summit street. No loss.

April 8. Alarm from box 25 for supposed fire in C. C. Paige's block. No loss.

April 18. Still alarm for chimney fire in house of W. C. Martin, Bow street. No loss.

April 23. Still alarm for brush fire on land of B. F. Kimball, Terrace street. No loss.

May 1. Still alarm for chimney fire in C. W. Cate's house. No loss.

May 1. Still alarm for chimney fire in house owned by Mrs. C. C. Kenrick on School street. No loss.

May 2. Still alarm for chimney fire in house, corner of Prospect and School streets, owned by Mrs. C. C. Kenrick. No loss.

May 2. Alarm from box 25 for supposed fire in Kennedy's Hotel. No loss.

May 12. Still alarm for brush fire near Webster lake. No loss.

May 20. Alarm from box 22 for fire at Cating house, Elkins street. No loss.

June 2. Special call for fire in house of Thomas Wise, River road. Value of buildings, \$1,200; insurance, \$1,000; loss on building, \$75; insurance on contents, \$500. Loss, \$10.

June 3. Still alarm for chimney fire in house of Mrs. Charles Cogswell on Central street. No loss.

June 13. Still alarm for brush fire on land of James Aiken. No loss.

June 23. Still alarm for brush fire on bank of Winnipiseogee river. No loss.

July 12. Still alarm for chimney fire in house of Michael Cating, Elkins street. No loss.

August 14. Alarm from box 14 for fire in building owned by Clinton Blake on North Main street. No loss.

August 19. Still alarm for brush fire near Webster lake. No loss.

August 23. Still alarm for brush fire near Webster lake. No loss.

August 28. Still alarm for chimney fire in Kelley house. No loss.

September 29. Still alarm for chimney fire in building owned by W. E. Carr on Franklin street. No loss.

October 17. Alarm from box 16 for fire in buildings owned by Robert M. Knight on Depot street. Value of building, \$3,000; insurance, \$2,000. Loss, \$225.

October 27. Still alarm for chimney fire in house of Dr. Staples on View street. No loss.

Oct. 24. Still alarm for chimney fire in McDonnell house, Bow street. No loss.

Nov. 12. Still alarm for chimney fire in house of Dr. G. A. Grace, South Main street. No loss.

Nov. 17. Still alarm for chimney fire in house of C. N. Emerson, Penigewasset street. No loss.

November 25. Still alarm for chimney fire in house owned by A. W. Sulloway on Elkins street. No loss.

December 4. Still alarm for chimney fire in house owned by A. W. Sulloway, Elkins street. No loss.

December 31. Still alarm for chimney fire in house of W. Parsley, Summit street. No loss.

In closing, we would offer the following recommendation that some arrangement be made, whereby steam could be had for the fire alarm at all times. For as the report shows, the only serious fire of the year happened on Sunday, when there was no steam on the gong.

Would recommend that at least one new alarm box be added to the system each year, for a few years, until the city is more thoroughly equipped.

That regulation fire hats be provided for pipe men and axe men of the department, as their work is the most dangerous.

That a life net be purchased.

Some new hose should be added to the department this year.

In closing, we wish to thank the City Government for their support; also the Highway Department for their co-operation, for without their assistance, it would have been impossible to have done our part of the work as well as we have.

NED BUNTON, *Chief.*

JOHN E. KEATING, *Chief.*

GEORGE F. GARNEAU, *1st Assistant.*

HARRY E. COLBY, *2nd Assistant.*

JOHN E. CUNNINGHAM, *3d Assistant.*

JAMES W. HUNTOON, *4th Assistant.*

LOCATION OF FIRE ALARM BOXES.

- 14—Corner of Main and Webster streets.
- 15—Private box at the Odell Hotel.
- 16—Main and Depot streets.
- 21—Center of Bow street.
- 22—South end of Franklin street.
- 23—Central and West Bow streets.
- 24—Glenwood avenue.
- 25—In front of Young's hotel.
- 31—Prospect and School streets.
- 34—Central and Maple streets.
- 35—At the junction of Pleasant and Orchard streets and Myrtle avenue.

BOARD OF HEALTH.

To the Honorable Mayor and Council of the City of Franklin.

The Board of Health respectfully present the following report for the year of 1907.

We have suffered comparatively little from the contagious diseases of which this board has direct supervision, the total number of cases for which house quarantine regulations are required, amounted to but 29. Of these there were 9 cases of diphtheria, 8 of scarlet fever, 4 of smallpox, 3 of typhoid fever, 2 of measles.

One death occurred from scarlet fever and one from typhoid fever.

The question of the expenses of caring for the contagious diseases is not generally understood by the public, and this board has obtained some unjust criticism on this account.

With no desire to apologize, but for a harmonious appreciation by the public, we deem it best to make the following suggestions.

1st. The statutes do not provide that persons suffering from contagious diseases, or placed in quarantine on account of communicable diseases, shall be indemnified for the lost of time, the loss of wages or any other misfortune.

The statutes say that such cases may be assisted, and such assistance is discretionary with the board of health as to amount, if any, and is not obligatory.

If persons isolated on account of contagious diseases would appreciate this fact, the labors of this board would be materially lessened.

2nd. The impression has prevailed in certain quarters, that vaccination which is compulsory, must be gratuitously performed by the city whenever application is made for free service. This idea is wrong, and vaccination is performed by the board of health, or vaccine is supplied by the board of health gratuitously, only when to said board the circumstances of poverty seem to warrant it.

3rd. Antitoxin is supplied to the poor only when in the judgment of the board of health, the necessities of the indigent require it. Whenever it is supplied to the poor, it must be through the board of health. This ruling is made because it is supplied by the producers at a specially reduced price for charitable purposes under

the approval of the health board, and is not intended as an interference with the supply obtainable through regular channels for those able to pay.

This board does not desire to deprive any one of the necessities of life or health, but does not feel it proper to supply these necessities to those desiring credit, or to those who are not in actual need.

The misfortune of the quarantined is not theirs alone, the city is a party to the unfortunate circumstances, and her interests, as well as those of individuals should be considered.

Your health board has frequently been perplexed while endeavoring to abate nuisances resulting from improper house sewerage. While the statutes are plain regarding the compulsion of all persons dwelling upon the line of public sewers to enter the same, the question as to the advisability of compelling said persons to enter surface sewers is debatable.

Section 2 of "A resolution relating to sewers and the entering thereof," passed May 22, 1904, says, "said board is further directed to compel any person having entrance to a private sewer on any street or way through which any public sewer may now or hereafter pass, to abandon such entrance forthwith upon the completion of such public sewer."

This board in most instances has ruled that if private sewers are inadvisable, inadequate and unhealthful, surface sewers are equally unsuitable for house drainage. Surface sewers for this purpose are not properly trapped, are frequently clogged by the wash of the highways from severe storms, and are often cleaned out by the highway department who deposit the accumulations of the man-holes for variable lengths of time by the roadside, thereby endangering the public health.

The only solution of this perplexing problem, is the completion of the sewer system according to the plans now in possession of the city, which we most earnestly recommend.

Wherever extensions to deep sewer systems have been laid, house connections have been made almost without exception by the abutters without special notice or demand from us.

We are gratified to note among our citizens a marked tendency to assist the health board in the prophylactic treatment of disease producing conditions, and assure

them that while the results benefit themselves, they are at the same time doing a work for posterity which is beyond comprehension.

C. W. ADAMS,
FRANK H. DANIELL,
H. W. GILCHRIST.

Park Commissioners.

CITY SOLICITOR'S REPORT.

To the City Council of the City of Franklin:

No suits have been brought against the city during the past year and none now exist.

The claim against Grafton County which has been pending for some time has been paid in full to the city.

Claims against the city, presented during the year, I have passed upon and reported back to the City Council

THOMAS F. CLIFFORD, *City Solicitor.*

FINANCE COMMITTEE'S REPORT.

The Committee on Finance have checked off the interest coupons paid during the year, amounting to \$5,766.25, and the funding bonds of 1899, Nos. 26, 27, 28, 29 and 30, amounting to \$5,000 00 and have destroyed the same.

M. J. NEVINS,
G. O. THOMPSON.

Finance Committee.

WATER RATES.

All customers are supplied through meters. The minimum charge is six dollars per year, which entitles the consumer to 2,000 cubic feet during the year. Rentals are collected quarterly. For the first 1,000 feet or less in each quarter the charge is 30 cents per 100; for the excess over 1,000 feet used in each quarter, 20 cents per 100 feet is charged.

Upon all quarterly bills exceeding \$12.50, a discount of 50 per cent. of the excess over \$12.50 is made.

No charge is made for private hydrants or for automatic sprinkler service.

THE WATER.

Extended experiments during the summer demonstrated that it was possible to add to the flow of the wells near the Pemigewasset river, water of an entirely satisfactory character filtered from the river, and that this water could be filtered in sufficient quantity by pumping it upon the sand hill above the wells. All the extra water needed was obtained in this way during the dry season. An addition to the station has been built to house the necessary pump, and pipes have been laid to effect this purpose when necessary. The expenditure so far as the work has been completed is reported under the head of "Filter Plant". Duplicate pumping machinery has been installed in the Pemigewasset station. The Bow street station contains two pumps, either of which is sufficient for the work there required. In addition there is also in reserve the steam pump in the No. 1 Paper mill. This duplication makes improbable any interruption in the supply from accident to the machinery. The discovery and repair in June of a long suspected leak brought the consumption down to a very reasonable figure.

According to published reports the average daily consumption per inhabitant in this country varies from 265 gallons in Pittsburg to 37 in Fall River. The average American consumption exceeds that found in European cities, which average but slightly in excess of the lowest here. In Berlin the amount used is only 22 gallons per inhabitant. The difference is not use but waste. The amount pumped here was for the last six months 31 gallons daily per inhabitant, reckoning the population at six thousand, and 35 gallons each for the year.

The total amount pumped during the last six months was 34,206,500 gallons. During the same period the meters registered 11,775,000 gallons, or a trifle over 34 $\frac{4}{10}$ per cent of the amount pumped. The balance represents water used for fire protection, flushing sewers, sprinkling streets, public fountains and leakage.

The average amount collected of the inhabitants for water from publicly owned works in America ranges from \$2.00 to \$4.00, averaging about \$2.50 for each person. The amount charged here for water through meters is, on the basis of last year, a little less than \$1.50 per inhabitant. The low consumption results from the fact

that all services are metered and that no water is supplied for manufacturing purposes. In the prevention of waste and moderation of the rentals collected from the community the Franklin Water Works are excelled by none. Neither is the water supplied inferior to that of any other system in appearance, taste, suitability for domestic uses, or hygienic quality.

If the amount pumped can be kept down to the figures of the last six months, there will be no occasion except in case of severe drought to use even the filtered river water. For a time in the winter some unfiltered Pemigewasset river water was pumped but the almost entire absence during the year of what are called water borne diseases justifies the statement made last year that this water was entirely suitable for domestic uses. No unfiltered river water has been pumped since March and with additions that have been made to the pumping machinery and the appliances for filtration now under construction, there is little probability that any emergency will require the use of unfiltered water from either river in the future.

A table in the report shows the average daily supply from the Coldbrook springs and the Pemigewasset wells. Except in dry weather, the greater part of the supply comes from the Coldbrook springs. That is pure spring water, as is also the water from the wells.

Further improvements are planned at the Pemigewasset station. More of the swampy material about the wells should be removed. A large collecting well, 30 or 40 ft in diameter, would furnish a reservoir supply which in case of fire could be rapidly thrown into the system with the pumps now in commission.

BOARD OF TRUSTEES' REPORT.

To the Mayor and City Council of the City of Franklin :

The reports of Warren F. Daniell, Jr., the treasurer of the board of trustees of the Franklin Public Library, and of Mrs. Shirley, the librarian, are submitted.

The opening of a public library is an event of some moment in the life of every community and every municipality. A good public library is one of the agencies that make for intelligence, social uplift, and a contented life among the people. That the new library building, with its sane architecture and delightful setting, is an ornament to the city, cannot be gainsaid. The erection of such a building, with its interior adornment and furnishings, is an educational force in itself, and has a tendency to arouse and foster a civic pride that every progressive city needs. Fortunate is the town or city that has one or more public buildings whose architectural beauty appeals to the eye—of citizen and stranger alike. Franklin has a better reputation for public spirit and rightfully has a higher opinion of herself, as others have of her, because one plague spot of dreary unsightliness has given place to a beautiful, serviceable, public library.

I think it has seldom happened that a library has been more appreciated. Already comes the demand on the part of the public for more books and more hours of opening for the reading room. We are fortunate in having at the present time nearly six thousand volumes in the library. This is a fact because the Smith library has been transferred to the Public library. It is well within bounds to say that the library has been used beyond our most sanguine expectations, and that there is a growing interest in it as shown by the increasing patronage.

We are sorry to record the resignation of Willard E. Everett from the board of trustees. I think it is a matter of justice to say of Mr. Everett, whose diligence was surpassed only by his perseverance in getting funds for the library, that his personal interest was the determining factor that makes our public library a present reality. I say this with a full appreciation of the labors and contributions of others, and without any disparagement of the timely service rendered.

Mrs. Shirley, the librarian, with Miss Carpenter as assistant, has made the library a working force. With a booklover's zest for her work, she has given her best service to the library.

Better than any description of the library, of its exterior design or interior furnishings, is to go within at some busy hour. It will then come home with a compelling force, that Franklin needs a library, that its library is being used, and that it will be a powerful influence in forming the intellectual and social life of the city.

JOHN W. STAPLES.

For the Board of Trustees.

LIBRARIAN'S REPORT.

To the Trustees of the Franklin Public Library :

The first annual report of the librarian is herewith submitted, containing a detailed account of the ten months' work since the formal opening of the Library.

The building was opened for inspection and for the registration of borrowers on the twenty-sixth of February, 1907 and for the circulation of books at 6 P. M., on the twenty-eight of the same month. Contrary to all precedent borrowers registered and took out books at the same time, greatly to their own convenience, if not to that of Librarian. One hundred and forty-three books were loaned on this first evening.

A printed form requiring name, occupation, place of business and residence seemed a source of annoyance to some people and this was soon discontinued and since that time only the name, street and number have been required, all people being received with equal good faith. Scores of books have been loaned to borrowers who were in town but for a brief stay and with them the formality of registration was dispensed with, so that the 2006 people who have registered since the opening of the Library are actual residents of Franklin.

On April first the work being too hard for one person, Miss Maud Carpenter was hired as assistant, serving faithfully and well until December first.

The Library contains, at the present time 5800 books ; 2600 of which were contributed by the Smith Library and are catalogued under that name. In the preparation of

French,	1,109
Swedish,	4
Total,	<u>30,955</u>

The Swedish books have been added since December first, which accounts, in part, for their small circulation.

The need of a greater number of books of a popular nature is very evident to one who is a constant user of the library. The many who come on Tuesday, Thursday and Friday afternoons to find the door locked convince us that the public demands more hours of opening. This is quite impossible with the present staff of one. The appropriation for the maintenance of the library should be largely increased.

Thanking the trustees for their constant consideration and courtesy, I am respectfully yours,

MRS. BARRON SHIRLEY.

Librarian.

TREASURER'S REPORT.

FRANK PROCTOR, *Treasurer.*

SUPERINTENDENT'S REPORT.

To the Board of Education;

I herewith respectfully submit my first report which is the seventh in the series of reports of the Superintendent of schools in Franklin. My own short tenure of office and your constant oversight of school affairs make it difficult for me to give you any new information. I shall, therefore, only comment briefly on the work as I have found it.

Even a superficial observation would show that the public believe in good schools and this belief is made tangible and practical by the financial and moral support which is given this interest by the community. Thus the schools are not only the public schools where all classes form the most real democracy, but they are the public's schools—a large and vital business interest where the capital invested is boys and girls and the profits, equally shared by the whole community, are the well-being and the safeguarding of the commonwealth. The city has little to fear so long as it holds true to this principle of action, but everything to fear when, even temporarily, it forgets that training and character are dependent upon superior teaching and those humbler accessories—clean, well-kept school houses, modern textbooks and sufficient supplies.

Externally the indications all point to competent administration; while the internal phases of the work, which deal with program of studies, promotion and grading and the like, reflect much credit upon the wisdom and efficiency of your former superintendent.

SCHOOL ACCOMMODATIONS.

Quoting from last year's report I may say that "all the schools in the city now have good accommodations." One new room has been opened at the Nesmith building for a fifth grade class. This leaves one full-sized room and a small recitation room available for future growth. There is also a large unfurnished room in the high school building. I am of the firm belief that the school environment should not only serve as a comfortable and healthful shelter but that it should in a large measure attract the child and appeal to his aesthetic nature. Even the rudest child likes and respects beauty and,

perhaps because it is too great a part of his own nature, hates ugliness. Hence the untidy room or, what is almost as bad, the overdecorated room, unattractive grounds and unswept school houses are all positive hindrances to school progress.

SALARIES.

Salary conditions are good and yet the amount paid to teachers is not normally proportionate to the total amount expended for school purposes. For example, last year teachers' salaries including superintendent amounted to \$11,846 25. The total amount expended, exclusive of \$1,279 38, paid for repairing the high school hall, was \$18,832 05. Thus, 62 per cent went for salaries. The same percentage was expended two years ago. The standard is said to be 80 per cent and many cities and towns in the state exceed this by several points. I do not see where any expense can be materially curtailed to make up the deficiency. About \$15,000 00 would have to be appropriated for salaries alone if we would meet the standard given above.

I have yet to learn of any perfectly satisfactory method of regulating salaries. The present custom of increasing the salary of an inexperienced teacher after two years service has some disadvantages. A trained teacher whose only experience has been gained in the practice school has generally much to learn about practical school-teaching. Ten dollars a week may be sufficient recompense for her services. But if she is ever to amount to anything, such a teacher ought to be worth a third more in efficiency to a school at the beginning of her second year. Consequently, with the present demand for good teachers, we have little chance of retaining a teacher unless her salary is increased after one year's service.

The time is at hand when a town must have some satisfactory and businesslike method of paying teachers or else fall behind in the race. I would strongly recommend that this matter be considered as early as possible and the salary question be put on a firm footing. I believe that any salary schedule should be so framed that in case a first class teacher is in the field she may not decline one of our positions because she can receive only the minimum salary no allowance being made for her successful experience elsewhere.

RURAL SCHOOLS.

Last year's report gives the average cost per pupil in our rural schools as \$47 60 against \$23 50 for the cost per pupil in the town schools. Think what this means! The city of Concord gives at \$28 00 per pupil not only the regular common school studies but also music, drawing, cooking, sewing and an excellent course in general manual training. Our rural schools costing more than half as much again give only a scant instruction in the three R's. There is a wide difference between the rural school of thirty pupils and that of ten or less. In the latter, class emulation is impossible. On the playground there are not enough children to get up a game. Close supervision of the untrained teacher is out of the question because of her remoteness. The loss to the children in the limited education received and to the city in its unproportioned expenditure of money ought to be sufficient reason for the closing of all the rural schools except that in the Morrison district.

The Pond school has at present a membership of five pupils. The Call school has an average attendance of six pupils. At some time in the future it may be possible to make arrangements with the town of Hill to take the children in this neighborhood. I regard the Morrison as one of the most important in the city. It has a membership of twenty-six and is graded as nearly as possible in accordance with the State program requirements. During the winter months this school is having one session in order that the objections of the unsupervised noon lunch period may be done away with. Thus far the experiment has proved a success.

HIGH SCHOOL.

The report of 1904 shows a registration of 81 students in the High school; the report of 1906 records 128. The spirit of the school is commendable. Principal H. P. Swett urges and maintains high standards of scholarship and conduct. Despite this fifty per cent increase in membership the corps of teachers remains the same as two years ago. The result is an overcrowding of some of the divisions that makes it impossible for the teacher to do justice to all in the class or give the individual instruction that is necessary. I am convinced that there is wisdom in the policy of retaining efficient high school

teachers even if salaries have to be increased beyond precedent. A saving of fifty or a hundred dollars—oftentimes the money distinction between efficiency and inefficiency—is pitiful when viewed from the standpoint of the students who ultimately pay the difference in price. It is vastly important that a high school faculty be an almost permanent organization of forces if the continuity of the work is to be maintained. Moreover, in a school of this size, I believe the principle ought to be adhered to of securing teachers who have had at least a year's experience. There are certain problems of adjustment to the work which every teacher must solve and which can be dealt with much better in a small school. After this experience has been gained, a teacher is competent to handle classes of the size that our high school has.

GRADING AND PROMOTION.

In the grades below high school I find that out of fourteen schools there are only two that have double grades, that is, two different years of work in the same room. As to the number of pupils per room I find an average of 38, a minimum of 22 and a maximum of 39 with the exception of one first grade of 54 pupils. In this room, however, the space is ample for their accommodation and a competent assistant is employed. Therefore, as far as these conditions are concerned, there is no reason why superior work cannot be done in the schools.

Below is given the average age of the children entering the several grades this year and the standard age.

Grade—	1	2	3	4	5	6	7	8	High.
Standard age—	6 yr.	7	8	9	10	11	12	13	14
Franklin schools—	6yr. 4mo.	7.9	8.7	10.1	10.11	12.6	13	13.8	14.5

A standard is difficult of attainment because of the large number of exceptional cases that have to be considered. Failure of promotion, sickness, the loss occasioned through changing from one town to another and numerous other causes easily raise the average of entrance to the different grades. To offset these circumstances there must be an elastic system of promotion which recognizes superior ability in a child and advances him accordingly. I find such a system in vogue. There are, however, certain difficulties and even dangers attending this plan of promotion. The fact that a child has lost a year or two of school attendance on account of illness is often made an argument for his double promotion when

it might perhaps better be an objection. Again, the fact that a child is extraordinarily precocious is no more reason for his completing the elementary course in six years than that his parents wish him to graduate in short trousers. Assuming an equality of excellence in the teaching force throughout, I believe it is better for even the capable and healthy child to pursue the unbroken course which means a steady development rather than a growth by leaps and bounds. There are many exceptional cases such as the child of parents who are dependent upon him for support, and who must get to work as soon as possible. At present the statutes protect the child until he is fourteen years of age and then his lot is that of the wage earner who does the work of a man, associates with adults, meets problems far beyond his years and training and in the great majority of cases later fills a position in the social scale far below the average. The pity of it all is that the school environment cannot have the growing child during these vital years of growth and development.

Respectfully submitted

W. H. SLAYTON.

HIGH SCHOOL REPORT.

To the Board of Education:—

My third report is herewith respectfully submitted.

THE SCHOOL PROGRAM.

In my second report was inserted the program of studies which was adopted for last year. This was the first complete program that was made for the high school with its course of five years. The year's test of its fitness for our conditions was satisfactory, and the present year it remains the same with the exception that there has been an increase in the amount of time devoted to English during the last three years of the course. This increase is owing to new requirements made for approved high schools by the state.

As this program will necessarily be the one around which the energies of the school will be centered in the

immediate future at least, some words of comment upon it are pertinent.

In the first place, it is based upon the program that was in force when the school had a course four years in length. This is necessary in order not to destroy in the endeavor to allow of a natural growth. Any immediate changes, also, will have to be based in a similar manner upon what we are now using. The extra year in the five year course, however, gave an opportunity for broadening the program by the introduction of a few new subjects and by allowing pupils to begin a modern language a year earlier than formerly.

These changes have been more directly to the advantage of those pupils who do not prepare for college. This is both fortunate and just. The colleges by their entrance requirements impose a standard upon high schools which is felt by all pupils, either directly or indirectly, but the welfare of those who do not go to college should be considered in the selection of subjects and in the amount of time allotted to them. The relative value of the different courses is now more nearly equal than was possible under the former program of studies.

HIGH SCHOOL DEMANDS.

As for the amount of work, the program demands of each pupil as much as can be done well. Less in quantity is required of the first two classes than of the three higher ones. This allows the possibility of adjustment in changing from the grammar school to the high school. But even so, there are more failures in the first two years than in the others. The pupil that passes these two years successfully is not so likely to fail later on.

The requirements of a high school are necessarily exacting, but not too much so for those pupils that give their first attention to their school duties. Graduates of a high school should be strong both in mind and body. But in order to accomplish this result, there must be regularity of habits out of school hours. Due attention must be given to study, to sleep, to exercise and to eating. As last year, I would again call the notice of parents to this important matter. Many parents, I find, are thoughtful and wise in this respect; but others do not realize the necessity of supervising the actions of their boys and girls in this direction.

There are other activities connected with a high school, manifested chiefly in athletic and social organizations. These are natural and proper, but everywhere they have a tendency to usurp too large a place. With such considerations in view a scholarship qualification has been imposed upon members of athletic teams. The result has been noticeable in keeping studies as well as games in the minds of pupils.

Other school organizations have also been more definitely brought under regulations.

Some of these regulations have been adopted after conferences were held with committees elected by the classes for the purpose. The scholars, generally, have shown good judgment and self-control in connection with these somewhat personal matters.

DIPLOMA AND CERTIFICATES.

A diploma is granted only to those who complete the full course. Other pupils are given a statement of the work completed by them, but such a statement carries with it no privileges.

Students preparing for college are required to attain a rank of 85 per cent in each study in order to secure a certificate.

SUGGESTIONS.

The most serious difficulty that has to be met is owing to the changes that have occurred in the personality of the assistant teachers. Of these there are four. In the three years that I have been connected with the school only one assistant has taught the full year two years in succession. No teacher, whether experienced or not, can give the best service of which she is capable the first year. A certain amount of energy must be spent in becoming adjusted to the particular conditions of the school. When a teacher leaves directly after this adjustment has been made, the school never gets the full benefit of her ability.

These changes are partly the result of economic conditions; for the more prosperous business is in the country, the more frequent are the changes among teachers. But, whatever the cause, it is worth considering whether it would not be wise to increase the salary of efficient assistants so that not more than 25 per cent of the assistants would change in a year.

Now, the high schools of small cities are in competition with those of larger cities ; for colleges require the same quantity and quality of work from all alike. This means, also, that small cities are in competition with larger places in the matter of salary. In order to have good work done in the smaller high schools it is necessary to have as good teachers as the larger ones have. There is no reason why this should not be the case. Our youth are just as worthy of good instruction as the youth of any other city whatsoever. And, clearly, a good teacher that is used to our school is worth more to us than the same teacher is worth to any other school. It would seem that the taxpayers would welcome a somewhat further expenditure for salary when the benefits would be so certain.

A few facts based upon accurate statistics will throw further light on this topic.

Nearly all the graduates of the public grammar schools of Franklin enter the high school. Only three did not enter this last fall. In larger places a greater proportion of the grammar school graduates cease to attend school. The relative cost of a high school for instruction, compared with the total expenditure for schools, is greater where a large proportion of the scholars attend the high school. The same conditions are to be found in other small cities of the country as well as in Franklin. And taking the country throughout, high schools, as a fact, cost proportionally much more in small cities than in the large ones.

Again, comparing the amount which is paid for assistant teachers in high schools having the standing that ours has, the sum that we pay for assistants is low.

The central heating plant furnishes an ample amount of heat for the building. There is need, also, of a better method of ventilation. Now that there is abundance of steam it would appear that a modern system of ventilation could be installed at a moderate cost.

ENTERTAINMENT.

The Longfellow readings which were given by Mr. Brodeur for the benefit of the school netted \$32.65. This has been spent in the purchase of books for the use of the different classes in history.

CONCLUSION.

Referring, in conclusion, to the school as a whole, the attendance is good, the pupils are courteous and most of them are succeeding well in their studies. The assistant teachers are earnest and are working for the interests of the school. Of last year's graduating class of thirteen, four were honor pupils, having attained a rank of 90 per cent, or more, for the entire course.

Respectfully submitted,

HARRY PREBLE SWETT,

Principal.

REPORT OF SUPERVISOR OF DRAWING.

Mr. W. H. Slayton, Superintendent of Schools :

As much good, I believe, can be obtained from drawing as from almost any other subject. It trains the eye, the hand and the mind. To train the hand we give the child scissors and he cuts from paper the forms of people and animals. His hands are hard to control and it is some time before he can do just what he likes. Later he is given a ruler, and carefully draws to scale an envelope or a lantern, where he must use accuracy and care. Soon geometrical problems come and then the mechanical work of the high school where he learns of projection, developments and sections. Throughout, he must be careful, neat and painstaking. The result is general mental and manual training.

The eye is trained to observe. If it be a pose lesson, the attention is called to the attitude, position and the character. If it be a lesson on objects, the height and width are spoken of. When landscape work is taken the children are asked to observe nature. In all these lessons the child has to think and reason. Because of this training he sees more on the street, at home and at school.

In design the inventive faculty is developed. Thought is given to combinations of color, and the recognition of good color wherever seen. The child gets an idea of pleasing form, selection and arrangement.

The work of the past year has been an attempt to put into practice in the school room the ideas here given.

Respectfully submitted,

DELLA I. BASSETT.

REPORT OF SUPERVISOR OF MUSIC.

Mr. W. H. Slayton, Superintendent of Schools.

In submitting my first report, I shall not occupy much space.

When I came here to take charge of the music department last spring, I came as a stranger to the teachers and pupils, and, to a certain extent to the "Modern Music Course" which had just displaced the "Normal Music Course."

I have always used the "Normal" books and had never seen the "Modern" books in actual use although I had previously looked the course through carefully.

It is, as I find it, an ideal collection of beautiful songs that appeal to children, but, it seems to me it does not contain enough exercises and studies to give the child the necessary amount of practice to produce good sight reading.

I am, however, open to conviction and if at the end of a year its use has produced better readers I shall feel that I have been mistaken and my criticism unjust.

I am using in the first and second grades "Howard's Progressive Exercises for Blackboard use." The music in the High School is not all that could be wished at present. Some of the lowest alto voices have been placed on the tenor part and by so doing we are trying to get all the harmony.

The chorus is now working on the cantata "Ruth" by A. R. Gaul. We have one forty minute period each week, and if we do not lose it on account of bad weather or holidays, we get twenty-four hours during the school year of thirty-six weeks and only a certain amount of work can be done in that time. The department is well supplied with books.

I wish to express my thanks at this time to the regular teachers for their able cooperation, and to all school officials who have helped to make my work so pleasant.

The school music department in the "Columbia School of Music" has adopted the following "Supervisor's Creed."

"I believe in the absolute nobility of teaching as a profession, and that music in the public schools presents an opportunity for enlarging the soul life.

"I believe in the universal helpfulness of music and in its influence for good.

"I believe that one should give the best of one's time, strength and talents to make the world better.

"I believe that the same principles underlie the teaching of music as underlie the teaching of any subject and that the same mental development is found in the study.

"I believe that love, sympathy and patience are three essential qualities in the successful teacher.

"I believe in the eternal inheritance of childhood,—an inheritance of beauty and truth."

"I fully subscribe to the above and hope and fully expect to make my next year's work the best I have ever done.

Respectfully submitted,

FRED H. OSGOOD.

* Honor Pupils. Those who have attained an average of 90 per cent for the entire course.

DIRECTIONS FOR CLOSING SCHOOLS.

The fire alarm of the city will give three blows of the alarm to close the schools when in the judgment of the Board necessity demands it, as follows:

At 7.45 a. m. No forenoon session for schools below the 5th grade and ungraded schools.

At 8.15 a. m. No forenoon session for any of the schools.

At 11.30 a. m. One session. Schools in session remain until 12.30 p. m.

At 12.15 p. m. No afternoon session for schools below the 5th grade and ungraded schools.

At 12.45 p. m. No afternoon session for any of the schools.

Three blows on the fire alarm, repeated at an interval of fifteen seconds, at any of the times mentioned above will affect schools at the Falls only.

When the signal is given at 7.45 a. m. or 8.15 a. m. and not repeated at 12.15 p. m. or 12.45 p. m., there will be an afternoon session.

If at any time pupils appear at school, teachers who may be present, or the janitors of the buildings, are directed to care for them as may be necessary, and not turn them back before they have opportunity to get rested and dry.

Teachers will keep the pupils well informed of this arrangement and caution them to listen for the signal at the times mentioned, especially in stormy or severely cold weather.

RESOLUTIONS.

In the year of our Lord one thousand nine hundred and seven.

A Resolution relating to the appointment of Standing Committees of the City Council.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor be authorized to appoint the following Standing Committees of the Council, to be appointed, one from each ward, viz.:

On highways,
fire department,
police,
schools,
public buildings,
ordinances,
street lighting,
cemeteries,
finance, to consist of the Mayor and two members
of the Council.

Approved.

MICHAEL J. NEVINS, *Mayor*.

Passed Jan. 7, 1907.

In the year of our Lord one thousand nine hundred and seven.

A Resolution relating to hiring money.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor and City Treasurer, for the time being, are hereby authorized to hire money to pay the

current expenses of the several departments, and any outstanding notes, bonds, or evidences of debt of the city becoming due, and to give promissory notes of the city therefor.

Approved.

MICHAEL J. NEVINS, *Mayor*.

Passed Jan. 7, 1907.

In the year of our Lord one thousand nine hundred and seven.

A resolution relating to the weekly pay roll of the Highway Department.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor be and hereby is authorized to draw his draft each week for the payment of the weekly pay roll of the Highway Department.

Approved.

MICHAEL J. NEVINS, *Mayor*.

Passed March 4, 1907.

In the year of our Lord one thousand nine hundred and seven.

A Resolution relating to the purchase of the Island property, so called.

Resolved by the City Council of the City of Franklin as follows:

That the city hereby votes to purchase the property of the Franklin Park Association known as the Island, containing approximately twelve acres as shown by plan, for the sum of six thousand dollars (\$6,000). Said property to be exempt from taxation for the present year.

Approved.

MICHAEL J. NEVINS, *Mayor*.

Passed April 1, 1907.

In the year of our Lord one thousand nine hundred and seven.

A Resolution relating to funds in hands of the Park Commissioners.

Resolved by the City Council of the City of Franklin, as follows:

The City hereby votes that one thousand dollars of the funds now in the hands of the Park Commissioners, be transferred to the City Treasurer for the purpose of applying as part payment for the Property purchased of the Franklin Park Association, known as the Island.

Approved.

MICHAEL J. NEVINS, *Mayor*,

Passed April 1, 1907.

In the year of our Lord one thousand nine hundred and seven.

A Resolution relating to state aid for highways.

Resolved by the City Council of the City of Franklin, as follows:

Resolved that from the money raised and appropriated for the repair of highways the present year, that there be set apart for the improvement of the same, seventy-five cents for each \$1,000 of its valuation the previous year as required by Chapter 35, Session Laws of 1905, and be it further resolved that in addition to the sum set apart as aforesaid, the City Council hereby appropriates and sets apart an additional sum equal to fifty per cent of the amount required to be set apart under Section 3 of said act for the purpose of being entitled to receive state aid under said Chapter 35, Session Laws of 1905, as amended by an act passed at the January Session, 1907, and approved April 5, 1907, also be it further resolved that the Mayor be authorized to sign an application for such aid as the city may be entitled under said votes.

Approved.

MICHAEL J. NEVINS, *Mayor*.

Passed April 19, 1907.

In the year of our Lord one thousand nine hundred and seven.

A Resolution relating to the power of the Park Commissioners.

Resolved by the City Council of the City of Franklin, as follows:

That in addition to the power conferred upon the Park Commissioners by vote of the town on March 14, 1893, said park commissioners are further authorized to lay out into lots for cottages, the following described tracts of land lying west and northerly of the highway and extending to Webster lake, originally reserved for a park as shown on a plan of lots drawn by George H. Allen; to wit, the tract lying between lots numbers 4 and 5; the tract extending southerly and westerly from lot number 1 to land owned by Charles N. Emerson, and to sell such an amount from tract adjoining lot number 7 on the south as may be necessary in order to make the south line of lot number 7 parallel with the north line of said lot; and said park commissioners are further authorized to lay out into lots for cottages that tract reserved for a hotel site.

Approved.

MICHAEL J. NEVINS, *Mayor*.

Passed March 6, 1907.

In the year of our Lord one thousand nine hundred and seven.

A Resolution relating to raising money by taxation for the year 1907.

Resolved by the City Council of the City of Franklin, as follows:

That the sum of fifty three thousand five hundred forty-eight dollars and twenty-seven cents, be raised by taxation the present year and that the assessors be instructed to assess and levy a tax for that amount viz:

State tax,	\$7,460 00
County tax	9,485 76
School money by law,	11,190 00
Public Library,	1,500 00
Bearing money,	312 51

And the sum, twenty-three thousand six hundred dollars, to meet expenses provided for by the appropriations made and that the same be appropriated with the other revenues of the city to meet the same.

Approved.

MICHAEL J. NEVINS, *Mayor*.

Passed May 20, 1907.

In the year of our Lord one thousand nine hundred and seven.

A Resolution funding thirty thousand dollars of Nesmith School Building, Heating Plant and Park notes.

Resolved by the City Council of the City of Franklin, as follows:

Section 1. That for the purpose of paying thirty thousand dollars of notes for money borrowed for the remodeling of the Nesmith School Building, for constructing the Central Heating Plant, and for the purchase of Odell Park, and to fund said notes, the city borrow the sum of thirty thousand dollars, and issue bonds therefor; that the Mayor and City Treasurer be and hereby are authorized and directed to make, execute, sign and affix the seal of the city thereto, and issue bonds of the said city for said sum of thirty thousand dollars, in the form prescribed by Chapter 43 of the laws of 1895; said bonds to be thirty in number, for the sum of one thousand dollars each, to be dated June 1, 1907, payable to bearer with interest coupons attached, bearing interest at the rate of three and one-half per cent, per annum, payable on the first days of June and December in each year; the principal of said bonds and the interest coupons attached to be made payable upon presentation at maturity at the First National Bank of Boston, Massachusetts, or at the office of the City Treasurer; the principal of said bonds to be made to become due and payable on the first day of June, A. D., 1927.

Section 2. That all of said bonds owned by the citizens of Franklin shall be exempt from taxation as provided in Chapter 55, Section 14, of the Public Statutes.

Approved.

MICHAEL J. NEVINS, *Mayor*.

Passed May 28, 1907.

In the year of our Lord one thousand nine hundred and seven.

A Resolution relating to the sale of bonds dated June 1, 1907.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor and City Treasurer be and hereby are authorized to accept the bid of A. B. Leach & Co. of Boston, Mass., for the issue of thirty thousand dollars of bonds of the city of Franklin, N. H., three and one half per cent, tax exempt funding bonds, dated June 1st, 1907, and due June 1, 1927, said bid being at .99037 dollars. Total amount for entire issue \$29,711 10.

Approved. MICHAEL J. NEVINS, *Mayor*.

Passed May 28, 1907.

In the year of our Lord one thousand nine hundred and seven.

A Resolution in relation to the discount in the collection of taxes.

Resolved by the City Council of the City of Franklin, as follows:

To such as pay their taxes on or before the first day of August next will be entitled to a discount of three per cent and the Collector shall give notice to all persons whose poll tax remains unpaid September 1 and if the same is not paid in fourteen days thereafter twenty cents shall be added for such notice which fee shall be additional compensation to the Collector.

Approved. MICHAEL J. NEVINS, *Mayor*.

Passed June 3, 1907.

In the year of our Lord one thousand nine hundred and seven.

A Resolution relating to thanks to Warren M. Draper.

Resolved by the City Council of the City of Franklin, as follows:

That the thanks of the City of Franklin be extended to Mr. Warren M. Draper for his generous gift to the city, of fire alarm box No. 24 and of installing the same.

Approved. MICHAEL J. NEVINS, *Mayor*.

Passed Dec. 2, 1907.

ORDINANCES.

An Ordinance relating to sewers.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. That the resolution of the City Council adopted May 10, 1895, relating to sewers, be and the same hereby is so far modified as to provide for a special assessment or charge only on such persons or corporations as have already, or may hereafter, connect with the new system of sewerage.

Sec. 2. That no person or corporation shall be required to connect with any sewer except by direction of the Board of Health of the city or the City Council.

Sec. 3. All persons who have already, or shall hereafter connect with the new system of sewerage, shall pay to the city the following sums, to wit: For each tenement of seven rooms or less, fifteen dollars; for each additional room in a tenement in excess of seven, two dollars.

Space in buildings occupied wholly or in part for stores, manufacturing, or other purposes than private barns, cellars and store houses or store rooms, or outbuildings, shall be reckoned and paid for on the basis of one hundred and fifty square feet of floor space as one room when connected with the sewer.

Sec. 4. All persons who have already connected with the new system of sewerage shall pay to the City Clerk the amounts for which they are liable under the provisions of

Section three within thirty days after the passage of this ordinance, with interest thereafter, and the City Clerk is hereby directed to collect the same.

Sec. 5. No person shall hereafter connect with any public sewer without first obtaining a permit therefor signed by the City Clerk and countersigned by the Highway Agent, and before such permit is issued to connect with the new system of sewerage such person shall pay to the City Clerk the sums for which he would be liable under the provisions of Section three.

Sec. 6. In any case where connection with a sewer is made by the Board of Health, through the neglect or refusal of the owner to comply with their orders so to do, the amount provided to be paid therefor in Section three shall become at once due and payable and collected by the City Clerk, but the City Clerk may issue a permit in such cases without prepayment.

Sec. 7. Every permit to connect with any public sewer issued by the City Clerk shall contain the name of the owner, the number of tenements and rooms in each for which the permit is granted, the location of the tenements and amount paid for such permit, a record of which shall be made by the City Clerk in a book kept for that purpose.

Sec. 8. All connections with any public sewer shall hereafter be made under the supervision of the Highway Agent and in accordance with his directions, and it is hereby made the duty of the Highway Agent to see that all such connections are securely made and in the safest and best manner, and that only proper pipe and other materials are used.

Sec. 9. No person or corporation shall deposit any garbage, coal, filth or any substance having a tendency to obstruct the flow of sewage in any manhole, flush tank or sewer opening.

Sec. 10. All fixtures connected with private sewers leading to the public sewers shall be provided with suitable traps and strainers to prevent the introduction of all solids or anything that would obstruct the flow in the pipes.

Sec. 11. Any person violating the provisions of Sections five and eight, nine and ten of this ordinance shall be fined not less than twenty dollars.

Sec. 12. This ordinance shall take effect upon its passage.
Approved.

E. H. STURTEVANT, *Mayor*.

Passed May 4, 1896.

An Ordinance relating to building in the compact part of the city of Franklin, as follows:

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. No buildings shall hereafter be erected on the north side of Central street, between Sanborn bridge and Daniell bridge, on the south side of Central street between Sanborn bridge and Church street, on Franklin street between Central street and Church street, except the same is constructed with solid outside brick walls at least twelve inches thick.

Sec. 2. This ordinance shall take effect upon its passage.
Approved.

E. H. STURTEVANT, *Mayor*.

Passed May 4, 1896.

An Ordinance relating to sewers and in amendment of an ordinance passed May 4, 1896.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. Any person connecting with a public sewer, who will sign a written request therefor, may pay an annual rental or tax as follows: For each tenement of seven rooms or less, \$2. For each additional room, in a tenement, thirty cents payable in advance. The first payment when

the permit is granted, subsequent payments to be collected by the Collector with other taxes.

Such rental shall cease whenever such party shall pay the fee heretofore prescribed and any sums due for such rental.

Sec. 2. This ordinance shall take effect upon its passage.
Approved.

E. H. STURTEVANT, *Mayor*.

Passed Nov. 2, 1896.

An Ordinance for the promotion of cleanliness in public streets and places.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. No person shall distribute in any public highway, within the city, any printed hand-bill, circular, or advertisement of any kind.

Sec. 2. No person shall place, throw or deposit upon any public highway, within the city, or upon any sidewalk therein, any paper, garbage, waste or refuse matter of any kind.

Sec. 3. No person shall spit upon the floor of any public conveyance, shop, store, hall, church, school house, railroad station or other public building in said city, or upon the steps of said conveyances or buildings, or upon the sidewalk of any public street or way in said city.

Sec. 4. Any person convicted of any violation of either section of this ordinance shall be fined not exceeding ten dollars.

Sec. 5. This ordinance shall take effect from and after its passage.

Approved.

FRANK H. DANIELL, *Mayor*.

Passed October 2, 1899.

An Ordinance relating to cemetery trust funds.

*Be it ordained by the City Council of the City of Franklin,
as follows:*

Section 1. That Chapter 40, Session Laws of this state for 1899, in which it is provided that (section 1):

“Any town or city which now holds, or hereafter may hold in trust, by bequest or otherwise, any fund for the care of any cemetery or private lot therein, may pay the same into the town or city treasury, and so long as the same remains therein, said town or city shall pay thereon an annual income at the rate of three and one-half per cent., which income shall be expended in accordance with the terms of the trust by which said fund or funds is held. (Section 2.) This act shall not be in force except in such towns and cities as by vote of the town, or City Council shall so elect.”

Be and hereby is adopted and in force in this city, and the City Council so elects.

Sec. 2. This ordinance shall take effect and be in force upon its passage.

Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed September 3, 1900.

An Ordinance in relation to the duties of the City Auditor.

*Be it ordained by the City Council of the City of Franklin,
as follows:*

It shall be the duty of the City Auditor annually, in the month of December, to examine the accounts of the Collector of Taxes and to notify every delinquent tax-payer of the amount of his taxes remaining unpaid, by mailing to

each in a sealed envelope a copy of this ordinance, together with a statement of the balance due as it appears upon the tax list.

Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed December 3, 1900.

An ordinance in relation to licensing dealers of junk.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. That all dealers in old metals, rubbers, rags or junk of any sort shall be licensed.

The said license shall be issued by the City Clerk upon recommendation of the Mayor.

The cost of said license shall be three (3) dollars per annum, dating from April 1, for the year ensuing.

Sec. 2. That no dealer shall buy of any minor, under fifteen years of age, any old metals, rubber rags or junk of any sort, without written consent of their parents or guardian.

Sec. 3. Any person convicted of violating the provisions of sections 1 and 2 of this ordinance shall be fined a sum not exceeding twenty (20) dollars for each offense.

Sec. 4. This ordinance shall take effect upon its passage.

Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed April 1, 1901.

An Ordinance relating to the names of streets and their numbers.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. That the names of the streets of the city of Franklin shall be as indicated on the map in the annual

report of the city of Franklin, of 1895, with addition of new streets and avenues since laid out with the following exceptions: That the southern section of Pemigewasset street, running east from North Main street, shall be known as Gerrish street. That the street running from Depot street to Franklin Heights shall be known as Summit street. That the street leading north from Summit street to Pleasant Valley shall be known as Valley street. That the street west of Valley street, leading south from Summit street, shall be known as Gilman street. That the street running north from Central street, near Republican bridge, to Cate brook, shall be known as Glenwood avenue. That the street running northwest from Bow street over Cheney hill to Glenwood avenue, shall be known as Cheney street. That the street running west from Bow street past what is known as Davis' block to Glenwood avenue, shall be known as Glen street. That the section of Maple street, running north from foot of Willow hill, then east to that section of Maple street running north, shall be known as Willow street. That the section of Winnipiseogee street running south from Central street to that section running east, shall be known as River street. The street running east, then north from Franklin street, opposite Church street, shall be known as Ayles Court. That the section of High street east of the Franklin & Tilton R. R., shall be known as East High street, and that section west of said railroad shall be known as West High street. That the street running east from Memorial street to Smith street shall be known as Canal street. That the name of Peabody avenue shall be changed to Peabody place. That the name of Railroad avenue shall be changed to Railroad street.

Sec. 2. The Mayor and Council shall from time to time, as the convenience of the public may require, designate the numbers to be affixed to the buildings on the several streets and squares in the city, and shall designate the names of new streets when laid out. In all streets the odd numbers

shall be on the right hand side, and the even numbers on the left hand side of the streets in the progressive order of numbering, commencing with the lowest numbers and proceeding therefrom with increasing numbers as follows: The numbering of North Main street shall commence at the southerly end at junction of Central and South Main streets. The numbering of all streets connecting with North Main shall commence at North Main street. The numbering of South Main street shall commence at the northerly end at junction of Central and North Main streets. All streets connecting with South Main shall commence numbering at South Main street. The numbering of Summit, Wells and Salisbury streets shall commence at Depot street. The numbering of Valley and Gilman streets shall commence at Summit street. The numbering of Central street shall commence at the westerly end at junction of North and South Main streets. All streets connecting with Central street, except Bow and Pearl streets, shall commence numbering at Central street. Bow street shall commence numbering at what is known as Paper Mill square. All streets connecting with Bow street shall commence numbering at Main street. The numbering of South Main street shall commence at Glenwood avenue. The numbering of Pearl street shall commence at the southerly end. The numbering of Canal street shall commence at Memorial street. The numbering of School, West, High, and Winnipiseogee streets shall commence at River street. The numbering of Ayles Court and Grove street shall commence at Franklin street. The numbering of Railroad, Elkins and View streets shall commence at School street. The numbering of East High and Russel streets shall commence at Railroad street. The numbering of Spring street shall commence at Prospect street. The numbering of all streets running east from Prospect street shall commence at Prospect street. The numbering of all streets east of Prospect street running parallel with Prospect street shall commence numbering at the northerly end. All streets

connecting with Sanborn street shall commence numbering at Sanborn street.

Sec. 3. Every entrance to a building fronting the street shall be designated by a separate number. In the residential portion of the city every lot with a twenty-five-foot front shall be designated with a separate number, and in the business portion of the city every lot with a twelve and one-half-foot front shall be designated with a separate number. The business portion of the city is embraced within the following limits: North and South Main street between Webster and Depot streets, Central street between River street on the west and Bow street on the east, Smith, Canal, Memorial and Church streets and Franklin street from Central to School streets.

Sec. 4. Any person who shall affix or suffer to be affixed to or shall allow to remain upon any building, any different number from the one designated by the Mayor and Council, shall be fined not less than one or more than five dollars, and a like penalty for every day he shall suffer such building to be so numbered after his first conviction of violating the provisions of this section.

Sec. 5. That measurement of each street in the city shall be made according to provisions of section three of this ordinance, determining the correct number of every entrance as provided for in section three of this ordinance, and that a correct record of same shall be kept on file in the office of the City Clerk in a convenient manner for the reasonable use of the public at all times. That there shall be transmitted by the person authorized by the committee on ordinances to make said survey, a notice and statement giving name of the street, the name of the owner, the name of the occupant, and the number of the building, together with instructions for procuring and fixing same.

Sec. 6. That the owner of the property shall within sixty days after receiving said notice as per section five of this ordinance, cause to be affixed to every entrance of a building fronting the street, mentioned in said notice, a metallic

or other suitable number at least two inches in height, and so situated as to be plainly visible at all times from the street.

Sec. 7. If the owner of any building, after receiving said notice as per section five of this ordinance, fail to comply with the provisions of section six of this ordinance, the said owner shall be fined not less than one or more than five dollars, and a like penalty for every day which the said owner shall neglect so to do after his first conviction.

Sec. 8. This ordinance shall take effect on its passage.

Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed April 1, 1901.

An Ordinance in relation to attendance of scholars.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. Any child in the city between the ages of six and sixteen years, without a regular and lawful occupation, who shall, except in cases of ill health, be absent from school more than one day during the space of any one month, unless excused by the teacher of the child, shall be fined not exceeding ten dollars for each offense.

Sec. 2. This ordinance shall take effect on its passage.

Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed May 13, 1901.

An Ordinance relating to fire alarms.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. When an alarm of fire has once been given upon the fire alarm system of the city, it shall be the duty

of the person giving the alarm to remain at the box in charge of the same until the arrival of some person detailed to guard such box, except when the fire is upon the premises of the person giving such alarm.

Sec. 2. No person shall ring in a second alarm except under the direction of an engineer of the fire department.

Sec. 3. The chief engineer, or in his absence one of the assistant engineers, shall at once, upon the sounding of an alarm upon the fire alarm system, detail some person to supervise and watch the box from which the alarm was given, and it shall be the duty of such person to remain at said box and protect the same from any person interfering therewith until he is relieved by said engineers.

Sec. 4. Any person violating the provisions of this ordinance or disobeying the orders of an engineer under it shall be liable to a fine not exceeding twenty dollars for each offense.

Sec. 5. This ordinance shall take effect on its passage.

Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed June 3, 1901.

An additional Ordinance for the promotion of cleanliness in public streets and places.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. No person or corporation in possession or control of any real estate adjoining a public street, shall place or permit to remain on the premises so occupied by him, any paper or waste matter or substance of any kind, in such a position or place that the same can be carried by the wind upon a public street.

Sec. 2. Every person or corporation keeping for sale at retail on premises adjoining a public street, fruit, nuts, or other goods from which waste is liable to be thrown upon

such street, shall keep the highway abutting on the premises occupied by him to the center thereof free and clear of waste substances and matter from such class of goods as are kept for sale by him at such store, and shall keep and maintain in a wholesome condition all such receptacles for waste matter as may be located by the city upon or adjoining the premises occupied by him.

Sec. 3. No person shall injure, disfigure, destroy or remove any receptacle for waste matter placed by the city upon any public street or place, or place therein any substance for which such receptacle was not designed.

Sec. 4. It shall be the duty of the city marshal and every policeman when on duty to see that this ordinance is strictly observed, and when unable to cause the removal of any such waste matter from the streets by the person depositing the same, he shall forthwith remove the same himself.

Sec. 5. Any violation of this ordinance shall be punished by a fine not exceeding ten dollars.

Sec. 6. This ordinance shall take effect on its passage.

Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed Aug. 5, 1901.

Resolved by the City Council of the City of Franklin, as follows:

That the following rule for governing the action of the Council be and the same hereby is adopted.

RULE 1.

No vote shall be adopted by the Council appropriating money, or incurring a debt exceeding five hundred dollars, at the same meeting at which the resolution is proposed, except by vote in favor thereof by seven members at least of the Council taken by a yea and nay vote.

Approved.

RUFUS G. BURLEIGH, *Mayor*.

Passed Nov. 4, 1901.

An Ordinance for the prevention of accidents upon the highways.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. No person shall drive any horse upon the highways of the city with a cow-bell or any other thing attached to the horse, harness or vehicle, that makes an unusual noise and frightens horses.

Sec. 2. Persons directing automobiles or other vehicles propelled by motors upon the highways of the city, shall upon meeting or passing other vehicles drawn by horses, which are frightened thereby, come to a full stop or reduce the rate of speed to such extent as necessary to avoid accidents resulting from such frightened horses.

Sec. 3. Any person convicted of a violation of either section of this ordinance shall be fined not exceeding ten dollars.

Sec. 4. This ordinance shall take effect on its passage.

Approved.

HARRY W. DANIELL, *Mayor.*

Passed April 9, 1902.

An Ordinance in relation to removal of buildings.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. That no building or buildings in the city shall be moved through highways except by owner first obtaining permit from the City Council.

Sec. 2. This ordinance shall take effect on its passage.

Approved.

HARRY W. DANIELL, *Mayor.*

Passed Aug. 4, 1902.

In the year of our Lord one thousand nine hundred and four.

An Ordinance relating to billiard, pool and lunch rooms.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. No owner or manager of a public pool or billiard room shall allow his pool or billiard tables to be used after ten o'clock at night.

Sec. 2. Any person violating this provision shall be punished by a fine of ten dollars.

Sec. 3. No keeper of any eating place, lunch counter or room shall keep his place open after eleven o'clock at night.

Approved.

ISAAC N. BLODGETT, *Mayor*.

Passed March 7, 1904.

In the year of our Lord one thousand nine hundred and four.

An Ordinance relating to injury to the highways and other city property.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. No person shall with any trenching tool or machine displace the surface of any highway within the city boundaries without permission from the Council or from the chief of the highway department, as the case may be.

Sec. 2. No person shall erect, raise or place any sign, billboard or other obstruction on or within any highway, nor shall any such person erect, raise, place or affix sign, billboard or advertisement on any lands of the city or any building thereon without consent previously obtained from the Council or head of the appropriate department.

Sec. 3. Any person violating any provisions of this ordinance shall be fined ten dollars for each and every offense.

Approved.

ISAAC N. BLODGETT, *Mayor*.

Passed May 2, 1904.

An Ordinance relating to pawnbrokers.

Be it ordained by the City Council of the City of Franklin, follows:

SECTION 1. No person shall carry on the business of a pawnbroker, within the City of Franklin, unless he is duly licensed therefor by the Board of Mayor and Council. Said Board of Mayor and Council shall, upon application, issue licenses to do business as pawnbrokers to such persons as said Board deem proper; and such licenses shall be for one year from their issue, but may be revoked at any time by said Board of Mayor and Council whenever in their opinion the public good requires. Such licenses shall designate the place where the person licensed may carry on his business, and he shall not carry on the business at any other place within the city; and the fee for such license shall be ten dollars per year.

SEC. 2. Every person licensed as aforesaid shall keep a book or record at his place of business in which he shall enter in English at the time of receiving the same, a minute description of any article left for pawn, particularly mentioning any prominent or descriptive marks on the same, with the name, age and residence, giving the street and number, where possible, of the person from whom he received it, noting also the day and hour and the amount paid or loaned thereon; and such book or record, and the articles left for pawn, shall at all times be open to the inspection of the Chief of Police or any person authorized by him. No person licensed as aforesaid shall directly or indirectly receive any article in pawn from any minor, knowing or having reasonable cause to believe him to be such, without the

consent in writing of the parent or guardian of such minor. And all persons so licensed, when requested to do so by the Chief of Police, shall make a daily statement to him of the articles left with them for pawn.

SEC. 3. If any person shall do business as a pawnbroker without obtaining such license, or if any person licensed as aforesaid shall violate the other provisions of this ordinance, or any of them, he shall be punished therefor by a fine not exceeding ten dollars for each offence.

SEC. 4 This ordinance shall take effect upon its passage.

Approved.

GEORGE E. SHEPARD, *Mayor*.

Passed Nov. 6, 1905.
